New York, April 27.-In a session of rather evenly distributed activity th stock market today gave the most im pressive exhibition of resilient firmnes which it has displayed in many week It was not subjected to very pronounced selling pressure, but the general upswing NEW YORK MOTEY.

New York, April E.—Call money opened at The action of the local exchange, however, was Irregular, with advances at the action of the local exchange, however, was Irregular, with advances at the professional speculative attitude of a rather bearish and skeptical character. The professional element had begun to formulate the opinion that the limits of recovery were clearly reached earlier in the week, and the further advance was rather an unexpected token of market conditions. The subsequent course of prices will be watched accordingly with all the more interest.

The market was by far the broadest that has been seen on the constructive side for some time past. Industrial specialties established substantial rises early their gain with a good deal of steady their gain with a good deal of steady.

Otherwise the deals strengthening the structural or teennical position of stocks. Otherwise the dealings of the day could be interpreted as in part a process of discounting the prospect for another agreement between Washington and Berlin, which would avert the breach of relations that threatened so ominously last week. Advices from both capitals seemed to warrant such a market war reflection. such a marketwise reflection.

#### Market Stimulated.

The professional viewpoint on the action of the New York list yesterday is shown in a dispatch from Logan & Bryan, New York brokers, as follows:

"The market was stimulated and sentiment was improved by advices credited with emanating from Berlin to the effect that the German note would be in Washington by next Monday and that Teu-tonic opinion was inclined toward the view that the crisis had been passed. Chapin-Sacks Chicago, April Z.—The wheat crop of Canada will be recided this spring under very poor promise and wader unfavorable elimatic conditions. There is a possibility of a failure of the crop, but with the best of conditions they can raise only an average yield. This, according to a special report from Todd W. Lewis, of C. E. Lewis & Co., of Minneapolis and Winnipeg.

"It is too early to make any estimate as to the loss in the spring wheat acresss," continues Mr. Lewis, "The sesson is late, and much plowing remains to be done before the ground can be seded. With a week of favorable weather, however, the reduction in the acresses will not be as great as is generally looked for. Our report today from all parts of North Dakota say that farm work is progressing rapidly, and in most districts seeding has been in progress for two or three days."

It was open to any one who chose to public honor, and felt very slightly the responsibility of their posts of trust. It was open to any one who chose to believe that less had been told than had been covered up; that, with but a little more probling, it might have been little more probling, it might have been extensions of older lines of established earning capacity; but the older por-The discredit of the ruling party in for the new.

The discredit of the ruling party in the houses was steadily deepening.

The painful impressions left by the investigation were heightened by the deliberate action of the houses during the very session which saw it instituted and concluded. They did not acruple to pass an Act which increased the compensation of senators and representatives and which was made to apply retroactively to the sessions of the past two years—an Act which the country very bluntly dubbed a "salary grab" and deemed quite in keeping

## Movies Show "Safety First."

A dramatic, interest-gripping motion-picture drama is the channel through which the employes of the New York Central Railroad lines are being taught the vital lessons of the "safety first" movement. A railway coach, for the special purpose of showing this production, is being taken over the lines, stopping at all yards and shops for daily exhibitions before employes families. Employes are required to atvarious practices in shops and switch
